Volunteers in Policing Program

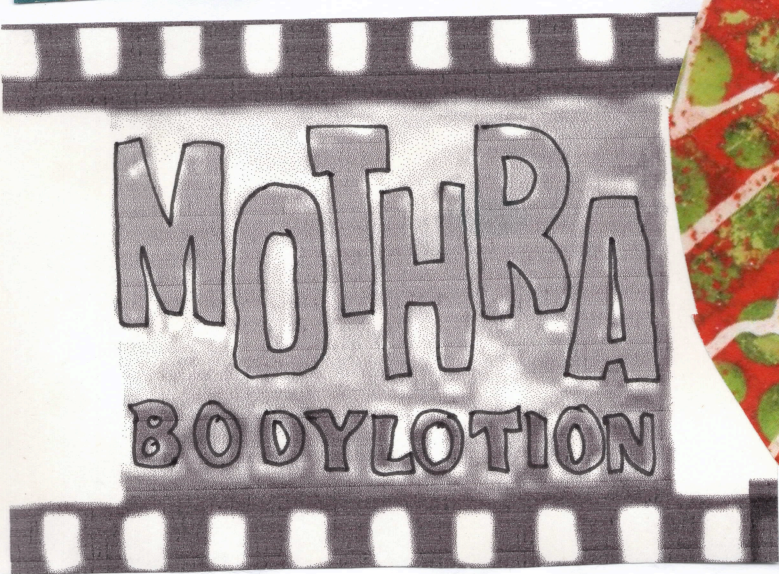

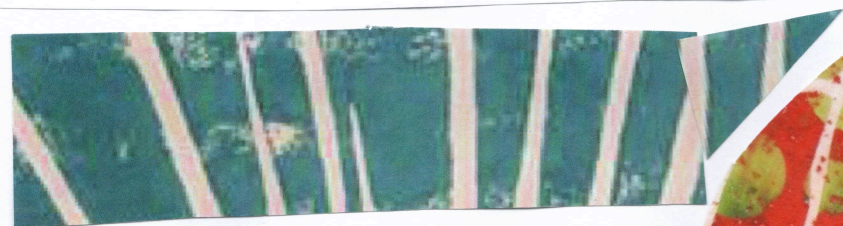

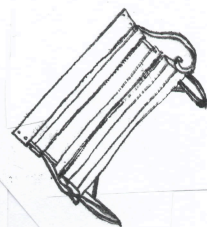

Re-release from this Sydney artist associated with Sex Tourists. Raw, dirty, humble, scratchy folk from the bottom of the barrel

Garden Seat.

Kiyasu is no traditional drummer: his solo style is experimental, with a nod to grindcore and noise music. He has a minimalist style and is an absolute master of dynamics and tone. This very special release features an exclusive live performance of two improvised tracks recorded especially for Garden Seat. Garden Seat brings the ephemeral to tape for your auditory pleasure.
